Studying and Living on Campus

The campus setting simplifies the day-to-day functions of the university and makes communication very convenient. The individual faculties, administrative offices (e.g. the Student Service Center), refectory, cafeterias, bars and libraries are located closely together. People do not only study, teach and conduct research here, but also live.

The true sense of “university”: a sense of community, cooperation and solidarity among the academic staff and students is very present at the University of Augsburg. This close-knit atmosphere benefits all members of the university community.
Interdisciplinary cooperation is a part of daily research and teaching at the university, and new forms of teaching are constantly developed across faculties in order to intensify and accelerate learning. This can also be observed within the curricula, which are designed to meet high standards of academic excellence in addition to the practical needs of society and economy. The University of Augsburg places special focus on environmental studies, interdisciplinary health studies, teacher training, materials science, and computer science. The University of Augsburg readily approaches ethical issues and social responsibilities involved in education and research. This is reflected in the university’s motto: “Scientia et conscientia”.

The University of Augsburg provides ideal conditions for successfully completing a degree program within a reasonable time frame. Each of the eight faculties adheres to long-term strategies for education and development, and uses the most up-to-date facilities available:

In general, however, students in Augsburg live in shared flats (usually not furnished). The rental prices are relatively low in comparison to Munich. The internet (e.g. www.wg-gesucht.de), or the university’s bulletin boards are great sources for finding shared flats.

Other organizations, such as Kolping and BLUV, offer accommodation as well. For detailed information please check: www.studentenwerk-augsburg.de/accommodation

The application deadlines for exchange programs vary depending on the program. Applicants should therefore contact the responsible exchange coordinator at their home institution.
