

My name is Lily Bouchard, I am a French student entering my 3rd year of law school in Montpellier.

I would like to share the experience I had this summer by choosing Augsburg for my summer program.

It was the best choice I could have made, and I have absolutely no regrets, whether regarding the school itself, the friendships I formed, or the life I experienced there.

I chose Augsburg because it offered the best value for money, it was the only program that was so affordable yet lasted so long, and it didn't require a partnership between our universities.

Concerning the university, the campus is huge and offers great facilities. You can also rely on the staff, who are always available and never leave you without an answer.

I really appreciated the well-structured schedule : classes were spread over either 3 or 6 weeks, leaving plenty of free time to organize trips, go out, or explore Augsburg.

The professors are all kind, supportive, and available whenever you have questions, which puts you right at ease.

They also make their PowerPoint slides available, which is very useful and reassuring for students whose native language isn't English as was the case for me.

Regarding exams, I think it's great that some professors allow the open book form of exams it makes it much less stressful.

I have nothing to add concerning the university's organization, I felt very comfortable there.

My time in Augsburg will remain one of the best experiences of my life.

Thanks to this program, I met so many different people, and some of those connections turned into genuine friendships.

I also went there to improve my English, it's the best way to do it because you spend 6 weeks surrounded only by people from different cultures.

This year there were people from the US, Finland, Georgia, England, Russia, the Czech Republic, New Zealand, Poland... Having so many people from different countries makes the experience even more enriching.

You'll never be bored there, there is so much to do.

Augsburg has such a friendly atmosphere that it feels just like a small town. It makes the place feel warmer and more welcoming.

The German students also organized plenty of outings, which was the best way for everyone to get to know each other.

I was able to visit Augsburg and Munich which is just a short hour away from Augsburg and I also traveled to Austria to visit Salzburg and Vienna.

I also went to Lake Eibsee, a spot I highly recommend.

We also spent afternoons swimming at Lake Kuhsee and evenings in Biergarten those will remain my fondest memories.

I 100% recommend having this experience, I would give anything to relive those 6 weeks.
