

AUGSBURG PLANETARIUM

January 31, 2020

In Augsburg's planetarium you can experience space travel and explore the planets of our solar system. From the valleys and volcanoes of Mars to the icy dwarf planet Pluto – you are able to discover incredible landscapes just like space travelers of the future will, but all from the comfort of an air-conditioned dome hall.

PROGRAM DETAILS

We will meet at 7:15 pm in front of the planetarium. The show will start at 7:30 pm and it will take about 90 min. It is called "Mars1001: A Journey to the Red Planet" and will be held in English. Afterwards, anyone who would like to can join us to the [Ratskeller](#) for some drinks or a late dinner.

GREAT
FOR SPACE
ENTHUSIASTS

PROGRAM COSTS

Around 10€ for drinks at the Ratskeller
