

Registration Form for the Master's Thesis in Materials Science & Engineering

I. To be completed by the student:

Surname, Name/s:

Enrolment no. (*Matrikelnummer*):

I have verified the accuracy of my data (surname, first name/s, and address, e.g., for spelling errors) in Studis / VIBS.

I hereby confirm that I have completed all modules from Module Group 1 (Materials Engineering, Materials Physics, Materials Simulation) as well as Module Group 7 (Lab Project) and achieved the 78 credit points required for starting the thesis (see §18 (2) Examination Regulations).

I am completing the master's thesis in the following research group:

First Examiner:

Chair / Working group:

I hereby declare that I have read and acknowledged the information sheet "Information on Registering for the Bachelor's / Master's Thesis".

I hereby acknowledge that failure to register the master's thesis promptly after the topic has been determined may result in the annulment of this examination.

Furthermore, I acknowledge that in the event of an early submission of the thesis (less than two-thirds of the allotted processing time), the reasons for this will be reviewed. In such cases, the Examinations Office will request official statements from both the student and the examiner to further assess the situation.

Date

Signature (Student)

II. To be signed by the examiner and forwarded within 4 weeks to the Chair of the Examination Committee

Title of the master's thesis

(Please write legibly | in block letters | use proper capitalisation)

Prof. Dr

has agreed to act as second examiner for this master's thesis and has been informed by me that a topic has been assigned.

The correction period according to the Examination Regulations is known to me/us.

Date

Signature (First Examiner)

III. To be signed by the Chair of the Examination Committee and returned to Examination Office B - Unit I/5 - MNTF

Title and second examiner noted and approved.

Date

Signature (Chair of the Examination Committee)
